LETTER OF TRANSMITTAL

OFFICE OF PUBLIC SERVICE COMMISSION

To His Excellency, Richard W. Riley, Governor of South Carolina:

Sir:

We have the honor to transmit herewith the One Hundred and Sixth Annual Report of the Public Service Commission of South Carolina for the year ending June 30, 1984.

Yours respectfully,

GUY BUTLER, Chairman
FRED A. FULLER, JR., Vice Chairman
RUDOLPH MITCHELL

CAROLINE H. MAASS
CECIL A. BOWERS
HENRY G. YONCE

Commissioners

JAMES H. STILL
Executive Director

ANNUAL REPORT OF THE PUBLIC SERVICE COMMISSION OF SOUTH CAROLINA

To the General Assembly of South Carolina:

The Public Service Commission has the honor to respectfully submit for your consideration this its One Hundred and Sixth Annual Report.

Below is the personnel of the present Commission and the Counties comprising the districts:

First District

Marjorie Amos-Frazier Charleston, S. C.
Beaufort, Berkeley, Charleston, Colleton, Dorchester, Hampton,
Jasper

Second District

Henry G. Yonce Columbia, S. C.
Allendale, Bamberg, Barnwell, Calhoun, Lexington, Orangeburg,
Richland

Third District

Guy Butler, Chairman Greenwood, S. C.
Abbeville, Anderson, Aiken, Edgefield, Greenwood, McCormick,
Newberry, Oconee, Pickens, Saluda

Fourth District

Fred A. Fuller, Jr., Vice Chairman Greenville, S. C.
Greenville, Spartanburg

Fifth District

Cecil A. Bowers York, S. C.
Cherokee, Chester, Chesterfield, Fairfield, Kershaw, Lancaster,
Laurens, Sumter, Union, York

Sixth District

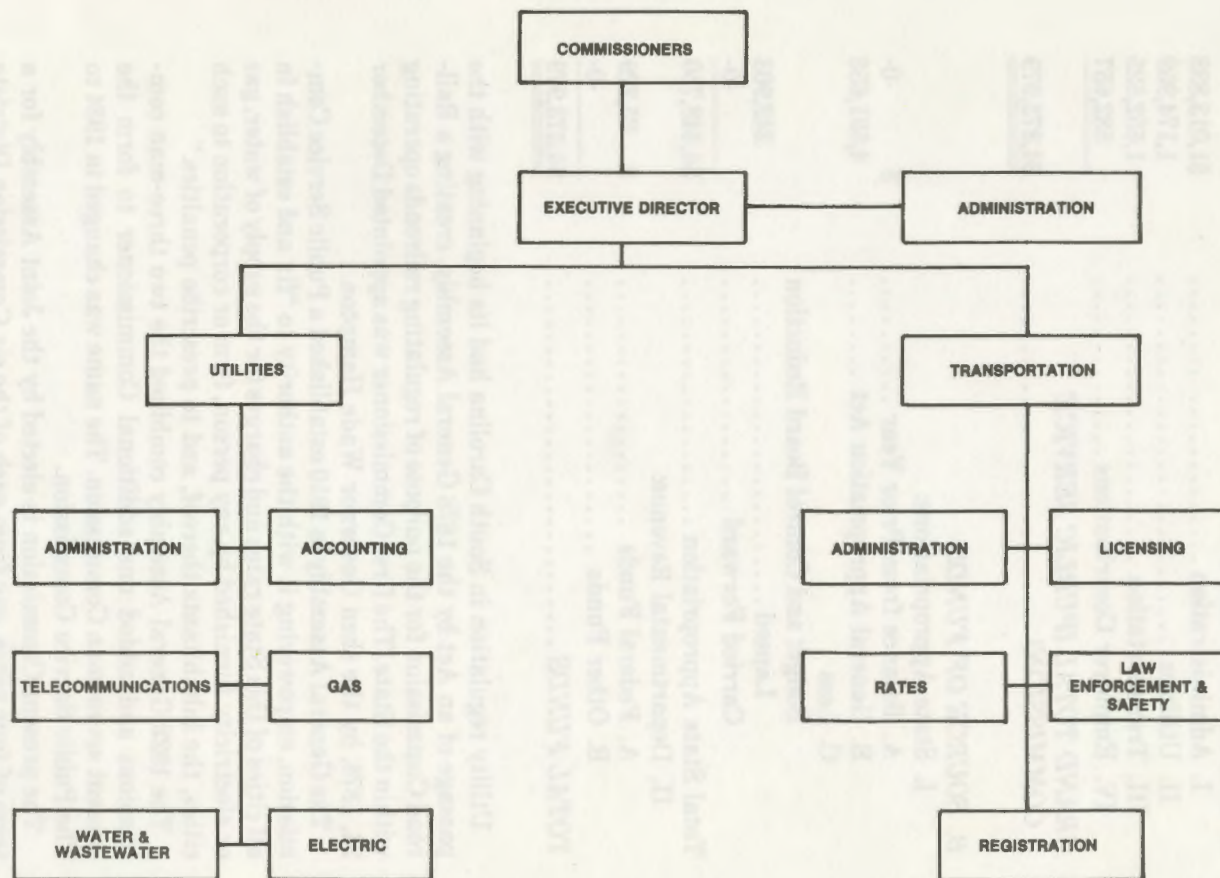

Caroline H. Maass Andrews, S. C.
Clarendon, Darlington, Dillon, Florence, Georgetown, Horry,
Marion, Marlboro, Lee, Williamsburg

At-Large

Rudolph Mitchell Saluda, S. C.
Statewide

TABLE OF CONTENTS

SUMMARY OF EXPENDITURES

A. EXPENDITURES

| | |
|----------------------------------------------------------------|---------------------------|
| I. Administration | \$1,013,838 |
| II. Utilities | 1,174,959 |
| III. Transportation | 1,652,525 |
| IV. Employer Contributions | <u>532,657</u> |
| <i>GRAND TOTAL (PUBLIC SERVICE</i> <i>COMMISSION)</i> | <u><u>\$4,373,979</u></u> |

B. SOURCE OF FUNDS

| | |
|------------------------------------|---------------------------|
| I. State Appropriations: | |
| A. Balance from Prior Year | \$ -0- |
| B. General Appropriation Act | 4,591,653 |
| C. Less | |
| Budget and Control Board Reduction | |
| Lapsed | 242,903 |
| Carried Forward | <u>-0-</u> |
| Total State Appropriation | \$4,348,750 |
| II. Departmental Revenue: | |
| A. Federal Funds | \$ 25,229 |
| B. Other Funds | <u>-0-</u> |
| <i>TOTAL FUNDS</i> | <u><u>\$4,373,979</u></u> |

Utility regulation in South Carolina had its beginning with the passage of an Act by the 1878 General Assembly, creating a Railroad Commission for the purpose of regulating railroads operating within the State. The first Commissioner was appointed December 24, 1878, by the then Governor Wade Hampton.

The General Assembly in 1910 established a Public Service Commission, empowering it with the authority to "fix and establish in all cities of this State rates and charges for the supply of water, gas or electricity furnished by any person, firm or corporation to such cities, the inhabitants thereof, and to prescribe penalties."

The 1922 General Assembly combined the two three-man commissions and added one additional Commissioner to form the present seven-man Commission. The name was changed in 1934 to The Public Service Commission.

The present Commission is elected by the Joint Assembly for a term of four years, one from each of the six Commission Districts and one Commissioner at-Large.

Authority vested in this body by Statute is to:

1. Regulate and supervise the privately-owned electric utilities as to their rates, charges, services, facilities, practices, accounting procedures, the purchase, sale or lease of utility property and the issuance of securities, as well as administer the Rural Electric Cooperative Act pertaining to territorial boundaries and also administer the Utility Facility Siting and Environmental Protection Act.

2. Approve rates and supervise services of all privately and publicly-owned telephone and telegraph companies as well as radio common carrier companies within the State.

3. Regulate rates and charges, services, facilities, practices and accounting procedures of all intrastate privately-owned gas, water and sewerage companies, and administer the Gas Safety Act enacted by the 1970 General Assembly.

4. Supervise and regulate for-hire motor carriers of persons and property as to authorities, rates, services, charges, schedules, insurance, safety, practices and facilities. Consider applications for Certificates of Public Convenience and Necessity, revoke and suspend same for cause. The Registration and Safety Act, as passed by the 1970 General Assembly, is also administered by this agency. Enforcement of the rules and regulations of the Transportation Division is carried out by uniformed Inspectors in marked patrol cars throughout the State.

During the past fiscal year, the Transportation Division dispensed license tags to 11,545 operating units varying in price from \$7.50 to \$125.00 each, according to payload. The various fees assessed produced a revenue of \$910,885.15.

As of Dec. 31, 1983, fifty-seven electric, gas, telephone, telegraph, and radio common carrier utilities were operating within the State with a total plant investment of 6.3 Billion Dollars generating gross revenues of 3.0 Billion Dollars. The 155 water and sewerage companies operating within the State generated 9.8 Million Dollars of gross revenue.

The monies appropriated for these functions are obtained as follows:

Electric, gas, telephone, telegraph, radio common carrier, water and sewerage companies are assessed on a gross revenue basis for the operation of the Administration and Utilities Divisions. The funds for the operation of the Transportation Division are deducted from the fees collected from the sale of licenses and the assessment of railroads. The remainder is deposited with the State Treasurer for distribution to the cities and towns which amounted

to \$949,341.83.

Revenues from the registration of trucks and the sale of identification stickers are used to defray operating expenses appropriated for the administration of the Registration and Safety Act. Any remaining funds are deposited with the State Treasurer.

From the tremendous growth of industry in the State in the past several years, coupled with the expanding economy, as evidenced by the above figures, conservative projections indicate that utility installations will more than double within the next ten years. During the past fiscal year, the Commission processed five hundred and fifty-five (555) applications; hearings were held thereon when necessary, and Orders issued.

UTILITIES DIVISION

The function of the Utilities Division of the Public Service Commission is to perform the necessary duties related to the regulation of utilities under the jurisdiction of the Commission. The management staff plans, coordinates, directs and supervises the work of its five departments as shown below:

- I. Accounting Department
- II. Electric Department
- III. Gas Department
- IV. Telecommunications Department
- V. Water and Wastewater Department

The activities of this Division for the fiscal year 1983-1984, affecting the various utility groups, are summarized by each Department on the following pages of this report. Three hundred and seventy-six Orders were issued through this Division during the fiscal year, and public hearings were held in connection with ninety-eight of these.

GAS DEPARTMENT

There are six private corporation natural gas utilities serving customers in South Carolina. The rates and services of these utilities are subject to jurisdiction of the Public Service Commission. The natural gas utilities and the communities they serve are listed in the tables included in this report.

Natural gas brought into South Carolina is produced principally in the gas fields of Louisiana and Texas, including the offshore areas in the Gulf of Mexico. During the Fall of 1978, our State started receiving gas from Algeria. Liquefied natural gas was transported from Algeria to a regasification plant and marine terminal located on Elba Island, which is near Savannah, Georgia. However, this plant, operated by Southern Energy Company, presently is not receiving the shipments because the Algerian Government has terminated the contract for the supplies.

Gas is transported to South Carolina by two interstate pipeline companies: Transcontinental Gas Pipeline Company and Southern Natural Gas Company. Transcontinental's pipeline crosses the State in the northwest corner, passing just south of Anderson and Spartanburg, South Carolina, while Southern's pipeline enters and terminates in our State at a point near Aiken. All natural gas

consumed in South Carolina is furnished by these two interstate pipelines which furnish gas to natural gas authorities and municipally owned gas utilities, as well as privately owned utilities.

The Federal Energy Regulatory Commission has jurisdiction over rates and services of interstate pipeline companies and the price of natural gas sold by producers to interstate pipelines. These price fluctuations have a direct bearing on the cost of natural gas to the ultimate consumer in South Carolina.

The Commission received a number of complaints regarding services and charges from customers of the gas utilities. Each complaint was investigated and handled informally without necessity of a special hearing.

Many communities in South Carolina are receiving natural gas service through facilities owned by municipalities or gas authorities over which the Commission has no rate or service jurisdiction. However, the South Carolina Gas Safety Act of 1970 vested the Commission with pipeline safety jurisdiction over all gas system operators not subject to Federal Energy Regulatory Commission jurisdiction. Therefore, pipeline safety jurisdiction includes public utilities, municipalities, natural gas authorities, certain facilities operated by interstate companies, certain public housing authorities and others who purchase natural gas through a master meter for subsequent distribution to individual consumers. As of June 30, 1984, there were thirty-seven (37) such operators.

During calendar year 1983, representatives of the Commission made 481 inspections of natural gas systems to ensure compliance with the South Carolina Gas Safety Act and the Minimum Federal Safety Standards for Natural Gas Pipelines. One hundred fifty-four (154) violations were found during these visits and, as of December 31, 1983, the Commission Staff verified compliance covering one hundred thirty-two (132) of these violations. The remaining violations necessitate continued monitoring to substantiate that they are corrected and brought into compliance with the Pipeline Safety Standards.

Agencies of the Federal Government and the State Commission have taken actions designed to increase exploration for new gas reserves within the continental United States and offshore areas. In our State, three companies have been granted Commission approval to engage in exploration activities designed to increase the supply of gas to the companies systems.

All six private gas utilities are operating under the provisions of curtailment plans designed to allocate gas on the basis of priority of service established by such factors as efficiency of use, safety

considerations, consumer reliance, and alternate fuel availability.

Two factors showing the pace of activity by natural gas utilities are the average number of customers and the gross plant investment. The growth in total customers served by each privately owned gas utility is shown by one of the accompanying tables. The total of natural gas customers grew from 228,656 in 1979 to 246,691 in 1983 for an increase of 7.89% over the five years.

Three (3) hearings for an increase in rates were held during the fiscal year covered in this report. Rates were also adjusted in accordance with approved purchased gas adjustment clauses which are designed to track changes in rates of interstate pipeline companies. Some of these rate changes were retroactive decreases which resulted in refunds being passed to the customer through billing credits.

JURISDICTIONAL NATURAL GAS SALES
1979 THROUGH 1983

TELECOMMUNICATIONS DEPARTMENT

The Telecommunications Department of the Utilities Division is responsible for the work necessary in the regulation of rates, compliance with tariffs, and quality of service pertaining to thirty telephone utilities, as well as fifteen radio common carrier companies. The Departmental Staff use such methods as performance tests, extensive files, and constant contact with the public to stay abreast of the ever changing environment of the telecommunications industry.

To be able to better serve the needs of the customer, who expects better service without delays, failures, or inaccurate billing, Staff is performing extensive performance tests. These tests are in the form of central office inspections and business office compliance audits. Twelve (12) central office tests were performed during the year to determine the condition of equipment and the grade of service being rendered. During the upcoming year, Staff plans to perform business office compliance audits on as many business offices as possible. This procedure is necessary to determine the level of compliance with the various tariffs and regulations set forth by the Commission.

The Staff maintains an updated file on all tariffs, territorial maps, and other pertinent data. The exhibits and materials submitted with rate applications are thoroughly reviewed before being introduced at a hearing. The Commission held thirty-one formal hearings involving telephone and radio common carriers. In addition, 101 tariff filings covering new service or change in language were reviewed by the Staff and approved by the Commission without formal hearings.

During the fiscal year, the Telecommunications Department processed in excess of 1,100 complaints. The Staff investigates, and makes every effort to resolve all complaints involving rates and service, territorial disputes and requests for boundary changes. This contact with the public is very vital to maintaining Departmental credibility, as well as a satisfactory grade of service.

During the past year, many changes continued to occur in the telecommunications industry. Public policy, especially at the Federal level, has resulted in a series of judgements and rulings which will have a major impact on the future of the world of modern telecommunications. January 1, 1984, saw the divestiture of the Bell System. The telephone utilities have continued to make large investments to improve their outside plant, central office, and toll equipment in an endeavor to cope with the ever expanding

telephone industry. This period has been laced with new concepts, regulations, and ideas for the Telecommunications Department Staff, and the Staff has strived to keep abreast of these changes.

Includes only South Carolina portion of TOLL REVENUE.

** Includes Plant in Service, held for future use.

*** Includes Plant in Service and under construction.

WATER AND WASTEWATER DEPARTMENT

The majority of water and sewerage utilities operating in the State of South Carolina are owned and operated by municipalities and public water and sewer districts which are exempt, by state statute, from jurisdiction of the Public Service Commission. The City of Anderson is provided water service by a privately owned utility and therefore is regulated by the Public Service Commission.

Efforts to improve efficiency of each company has brought consolidation of many of the smaller companies. As of June 30, 1984, there are 244 water systems and 198 sewerage systems operating under 155 companies regulated by the South Carolina Public Service Commission.

There were 13 new water or sewerage utilities granted Certificates of Public Convenience and Necessity during the fiscal year and 3 water or sewerage utilities that were granted certificated areas under formally organized corporations.

More stringent demands by state and federal agencies, higher operating and maintenance costs, wages and supplies caused 14 water and sewerage companies, operating in this state, to apply to the Commission for authority to increase their rates and charges for water and sewerage service.

As prescribed by law and after proper advertisement, public hearings were held on each application for adjustments in water and sewerage rates and charges.

The problems of water and sewerage utilities continue to be problems of the Public Service Commission. The Public Service Commission received a substantial number of customer complaints during the fiscal year. These complaints fell into one of two categories, either service or billing; each complaint was investigated and settled informally, or if necessary, resolved through public hearings.

Prior to issuing a Certificate of Public Convenience and Necessity to a water or sewerage utility, the Commission, among other items, required a performance bond in accordance with Section 58-5-270 of the 1976 Code of Laws of South Carolina as amended, complete cost and rate data, approval of adequate design, and supply potential, plat of proposed area to be served and copy of engineering plans and specifications.

ELECTRIC DEPARTMENT

The Electric Department, operating through the Utilities Division, is responsible for providing the Commission with data and information necessary for the regulation of all privately-owned electric utilities operating in South Carolina. This regulation of the electric utilities is designed to provide adequate service at reasonable rates to the people of South Carolina while assuring that these utilities are provided a reasonable return on the fair values of properties devoted to the public service.

The Electric Department also handles service and high bill complaints and during the fiscal year 1,132 formal complaints were investigated. Numerous other complaints and requests for information were received over the telephone and were handled without formal investigation.

Since its installation in 1976, the toll-free telephone line provided by the Commission has provided a means for customers over the entire State to contact their Commissioner or a member of the Commission Staff to discuss problems, complaints or to request information. During 1983 this was a valuable asset not only to provide the customer easy access, but also to provide the Commission with a consumer's view of what is happening across the State with the electric utility business.

Carolina Power and Light Company, Duke Power Company, and South Carolina Electric and Gas Company, the three major utilities serving the State are planning or building new generating plants, transmission and distribution lines so that adequate electric power will always be available for present customers and those who select to locate within the State.

South Carolina customers are receiving some power from the Clark Hill Project and the Hartwell Project through transmission lines of South Carolina Public Service Authority, Duke Power Company and South Carolina Electric & Gas Company.

The VACAR Group of the Southeastern Electric Reliability Council is a group of electric utilities operating in Virginia, North Carolina and South Carolina and include Carolina Power and Light Company, Duke Power Company, South Carolina Electric & Gas Company, South Carolina Public Service Authority, Virginia Electric & Power Company, as well as several smaller utilities. This Council was formed to increase reliability of the bulk electric power supply of the area served and is one of the national groups which makes up several area councils. These companies exchange information on planning, construction, system loads and other matters

affecting the bulk power supply within the area.

The South Carolina electric consumer, after having enjoyed continually decreasing costs from 1931 to 1969, has seen increases in rates throughout the 1970s and early 1980s. The price per KWH in 1982 was about equal to that experienced in 1933. The rapidly increasing cost of money, construction, fuel and other items which go into the cost of providing electric service have dictated the need for the Commission to grant rate increases to the utilities under its regulation. These increases are designed to insure that the Companies will be able to recover the cost to serve the increasing demand. The average South Carolina residential customer paid about 5.998 cents per KWH during 1983, an 3.77% increase over 1982 and compared to the national average of 7.16 cents per KWH.

A chart has been prepared comparing the residential electric consumption and the average price paid by the South Carolina consumers with the average consumption and price paid by the average United States consumer. This chart is printed on one of the following pages.

It is believed that good planning and management have provided South Carolina with adequate electric power in the past and that the organizations which generate and sell electric service in South Carolina will continue to provide adequate power at reasonable rates for the present and future needs of this State. Evidence of this is the fact that new generating facilities are presently under construction by both privately-owned and publicly-owned utilities within the State.

In an effort to reduce the need for more capital for new construction, and to conserve the energy sources we have, all three of the major utilities in the State are presently engaged in Load Management programs to decrease peak demands on the electric systems while providing adequate quality service to the customers. These programs are providing means to slow the rate of increase in the cost of electric service to the customer.

RATES

During 1983 the 721,695 residential customers in South Carolina served by the privately-owned electric utilities paid \$530,510,682 for 8,844,924,913 kilowatt-hours of electricity. The average South Carolina residential customer used 12,256 kilowatt-hours during the year for which he paid \$735.09 an average of 5.998 cents per kilowatt-hour, as compared to the average consumer in the United States who used 8,377 kilowatt-hours for which he paid \$599.73 an average rate of 7.16 cents per kilowatt-hour during 1983.

There are 3,294 large industrial customers of the privately-owned utilities in South Carolina who purchased 15,131,324,200 KWH at an average rate of 3.83 cents per KWH, a rate below the industrial power costs of a large portion of this Nation.

Industries now located within South Carolina and those desiring to move into the State will find that electric power can be secured throughout practically the entire State at reasonable rates.

TERRITORIAL ASSIGNMENT ACT

The General Assembly passed the "Territorial Assignment Act" in 1969 and the Commission, pursuant to the Act has required all "electric suppliers" to file maps with the Commission showing rural electric lines in existence as of July 1, 1969. As of July 1, 1971, mylar maps of all counties in South Carolina had been filed with the Commission and negotiations between the "electric suppliers" was begun.

Territory in practically all of South Carolina has been agreed upon by the "electric suppliers" and Orders approving the assignment of territory have been issued by the Commission.

SITING ACT

The 1971 General Assembly passed an Act to give the Commission authority over "UTILITY FACILITY SITING AND ENVIRONMENTAL PROTECTION" effective January 1, 1972.

The three major utilities are now providing for the Commission, on an annual basis, a report containing a ten-year forecast of loads and resources including probable construction.

ACCOUNTING DEPARTMENT

The Accounting Department is composed of sixteen Accountants who report to the Accounting Manager.

The Accounting Department's primary function is to examine the books and records of Utility Companies which are requesting an increase or change in rates. A Rate Case examination implements principles and procedures based upon regulatory laws and in this respect differs from audits conducted by a Utility Company's Public Accountants. After the examination, the Staff makes adjustments in the Company's operations to achieve a "normalized" test year. Staff's Exhibits and Testimony are directed toward the Company's operations and Staff's Adjustments. Based on the Staff's report and Company information the Commissioners are able to determine an equitable rate of return on the Company's investment.

The Staff utilizes computer software equipment to perform arithmetic calculations, special analyses, and statistical sampling. The Accounting Staff implements the software in the examination of Utility Company's accounting records for Rate Case Audits. The software is an effective and efficient means to sample the Utility's expenses and plant additions in order to verify compliance with this Commission's policies and procedures.

The Staff also insures that proper cutoffs of the test year are implemented as well as substantiating that revenues, expenses, and rate items are allocated according to proper jurisdiction. Employing these procedures, Staff verifies the Utility's operations and verifies the books and records to the filing and related Exhibits.

Emphasis is placed upon policies and procedures and the instructions thereto, as stated in the Chart of Accounts for the various types of Utilities. The Chart of Accounts outlines which revenues, expenses, and asset accounts that will ultimately determine the Utilities' Rate of Return on Rate Base.

After completing the examination, a Report is prepared with Exhibits and a written explanation of each of the Exhibits. Copies are distributed to each Commissioner, the Company, Intervenors, members of the Staff, and other Parties of Record. A member of the Staff will testify and submit the Report into evidence during the Hearing.

The Department also reviews the changing prices attributable to fuel prices. Specifically electric companies utilize a fuel adjustment clause and gas companies use a purchased gas adjustment clause. The Department semiannually monitors fuel costs, performs au-

mits, prepares reports and participates in formal hearings before the Commission centering around escalating fuel costs. Audits related to refunds from gas suppliers back to S. C. jurisdictional ratepayers are also conducted. Accounting Personnel employ the computer software mentioned above after sampling parameters are established by the lead auditor.

The Accounting Department administers the Gross Receipts Tax for Regulatory Expenses paid on an annual basis by the Utilities serving customers in South Carolina. The Utilities are required to report their Revenues received with the State. Tax Assessments are based on these Revenues.

The Accounting Department has prepared tables showing Operating Revenues, Operating Expenses, Net Operating Income, State and Local Taxes Paid, and Gross Plant in Service for Electric and Gas Utilities for the years 1980-1983. Operating Revenues, Operating Expenses, Net Operating Income, and Gross Plant in Service is shown for Telephone Utilities for the years 1982-1983 and for Mobile Communications Companies for the year 1983. Operating Revenues, Operating Expenses, and Net Operating Income are shown for Water and Sewerage Utilities for the year 1983.

The Tables are as follows:

TABLE A — Privately Owned Electric Utilities Operating in South Carolina. Selected Statistics for South Carolina only. For the Years Ended December 31, 1980-1983.

TABLE B — Gas Utilities Operating in South Carolina. Selected Statistics for South Carolina only. For the Fiscal and Calendar Years Ended 1980-1983.

TABLE C — Telephone and Telegraph Utilities Operating in South Carolina. Selected Statistics for South Carolina only. For the Years Ended December 31, 1982-1983.

TABLE D — Mobile Communications Utilities in South Carolina. Selected Statistics for South Carolina only. For Fiscal and Calendar Year 1983.

TABLE E — Water Utilities Operating in South Carolina. Selected Statistics for South Carolina only. For Fiscal and Calendar Year 1983.

TABLE F — Sewerage Utilities Operating in South Carolina. Selected Statistics for South Carolina only. For Fiscal and Calendar Year 1983.

TRANSPORTATION DIVISION

The functions of this Division are to enforce the *South Carolina Motor Vehicle Carrier Law, 1976*, as amended, and the Commission's *Rules and Regulations Pertaining to Motor Carriers*. The Law provides for the regulations, supervision and control of persons, firms, corporations, etc., operating motor vehicles used in the business of transporting persons or property for compensation over the highways of the State, and imposes license fees to cover the cost of administration.

The Transportation Division consists of the following Departments:

1. Certificate Department
2. Enforcement and Safety Department
3. Insurance Department
4. Licensing Department
5. Rates, Rails and Rail Safety Department
6. Registration Department

CERTIFICATE DEPARTMENT

The Certificate Department of the Transportation Division processes all Applications to acquire new authority, amend existing authority, transfer authority from one carrier to another, suspend authority, and to cancel authority.

There are presently 1,523 motor carriers holding intrastate authority granted by this Commission, as follows:

| Class | No. of Carriers | Type of Carrier |
|-------|-----------------|--------------------------------------------------------------------------------------------------------|
| A | 49 | Common carrier transporting passengers over regular routes and on regular schedules. |
| B | 2 | Common carrier transporting passengers not over regular routes or on regular schedules. |
| C | 298 | Common carrier — taxicabs and charter buses not operating over regular routes or on regular schedules. |
| D | 12 | Common carrier transporting property over regular routes and on regular schedules. |
| E | 960 | Common carrier transporting property over irregular routes and on irregular schedules. |
| F | 202 | Contract carrier transporting property over irregular routes and on irregular schedules. |

Notices of Filing (which must be published in newspapers of general coverage in the affected service areas) are prepared on Applications for Classes A, Charter C, D, E, and F, for new authority, and to transfer or amend existing authority. Notices of Filing were prepared on 203 Applications during this fiscal year, and 28 public hearings were held, as indicated below:

HEARINGS HELD DURING 1983-84 FISCAL YEAR

| Matters Heard | DISPOSITION | | | | |
|---------------------------------------|--------------------|----------|--------|-----------|---------|
| | Number of Hearings | Approved | Denied | Continued | Pending |
| Class C Charter | | | | | |
| For New Certificate | 1 | 1 | | | |
| Class E | | | | | |
| For New Certificate | 21 | 16 | 1 | 3 | 1 |
| To Transfer Certificate | 1 | 1 | | | |
| To Amend Certificate | 1 | 1 | | | |
| Class F | | | | | |
| For New Certificate | 1 | 1 | | | |
| Petition for Rule to Show Cause | 3 | 3 | | | |
| Fiscal Year Totals | 28 | 23 | 1 | 3 | 1 |

Applications for Class A (Restricted) and Class C (Taxicab) Certificates do not usually require Notices of Filing, or hearings. It is usual procedure for each of these Applications, after going through the acceptance process, to be presented to the Commission for a decision.

The Certificate Department processed and issued 559 Orders during the fiscal year. The majority of the Orders involved the issuance of Certificates of Public Convenience and Necessity, which are only issued after the motor carrier has filed all applicable insurance, rates, and fees for license tags.

There were 595 Certificates of Public Convenience and Necessity processed during the fiscal year, as outlined below:

CERTIFICATES PROCESSED DURING 1983-84 FISCAL YEAR

| Class of Certificates | New | Amended | Transferred | Cancelled | Suspended | Total Certificates Processed |

ENFORCEMENT AND SAFETY

1983-1984

The enforcement of Motor Vehicle Carrier Law of the State, Section 58-23-10 through 58-23-60 of the *South Carolina Code of Laws*, 1976, as amended, is carried out by the staff of thirty-nine Inspectors stationed throughout the State. During the Fiscal Year 1983-1984, these Inspectors made a total of 7,270 arrests with a total of \$233,755.00 in fines.

All of the Inspectors are certified by the South Carolina State Law Enforcement Division, and all have attended or will have attended in the near future the South Carolina Criminal Justice Academy as required by law. They wear uniforms and patrol in marked cars with two-way radios. The patrol cars are also equipped with C.B. radios which are used to contact other law enforcement agents and to assist the public. Their duties and responsibilities are to insure that the motor carriers under the jurisdiction of the Public Service Commission comply with the *South Carolina Motor Vehicle Carrier Law* and the Commission's *Rules and Regulations Pertaining to Motor Carriers*. The Inspectors investigate violations, issue warrants of arrest, initiate legal proceedings for violations, and work with the regulated carriers and with the public in helping them comply with the law. The Inspectors made 4,373 regulatory arrests with \$146,987.00 in regulatory fines during the fiscal year.

The Commission's Safety Program was started in 1971, and we now have eighteen Safety Inspectors stationed throughout South Carolina who specialize in Safety work. They conduct safety surveys of motor vehicles on Highways and at terminals of for-hire carriers, express companies and bus lines. During the Fiscal Year 1983-1984, the Safety Inspectors made 5,142 Safety Inspections from which 1,163 vehicles were placed out-of-service, and 2,897 Safety Arrests were made with \$86,768.00 in Safety Fines.

INSURANCE DEPARTMENT

Section 58-23-10 through 58-23-60, Motor Vehicle Carrier Law of the State of South Carolina, South Carolina Code of Laws, 1976 as amended, under SubArticle VI, Sections 103-170 through 103-180 of the Rules and Regulations Pertaining to Motor Carriers, states that all for-hire intrastate motor carriers of persons or property who are under the jurisdiction of the South Carolina Public Service Commission, must obtain and keep current, on file with the Commission, Public Liability and Property Damage Insurance and Cargo Insurance in at least the minimum limits of liability as prescribed by the Commission.

All Interstate Commerce Commission regulated motor carriers must register with the Commission and also have evidence of Public Liability and Property Damage Insurance on file with the Commission before operating into or through the State of South Carolina.

Insurance filings are accepted only from those insurance companies licensed to do business in the State of South Carolina by the South Carolina Department of Insurance and only on forms as prescribed by the Commission.

The functions of the Insurance Department are to receive and accept insurance filings on these for-hire intrastate and interstate motor carriers. There are approximately five thousand five hundred (5,500) or more filings on intrastate motor carriers and approximately twenty-nine thousand (29,000) filings on interstate motor carriers. The Insurance Department receives and reviews about five thousand five hundred (5,500) insurance filings or modifications of filings each month.

The Insurance Department notifies these regulated carriers and Inspectors in their respective districts, of an impending thirty (30) day notice of cancellation and if other coverage has not been filed within that time limit, a letter to cease operation is also sent to the motor carrier and Inspectors approximately five days prior to the cancellation date of the insurance.

Before any motor carrier may commence operating, insurance must be on file with the Commission and must be kept current in order to continue such operations. A motor carrier's authority may be revoked or cancelled by the Commission for failure of the motor carrier to keep insurance on file.

Before any license tags or identification stamps can be issued, the Insurance Department must check each application to see that the proper insurance is on file before releasing the tags or stamps.

The Insurance Department receives and prepares all new applications for authority on Class C (Taxicab), Class A (Restricted), Class E-Interstate and Class F-Interstate for insurance and license tag fees. Once in compliance, these applications are then given to the proper Department for docketing and Commission decision. The Insurance Department processed approximately one hundred sixty (160) of these applications for the period of 1983-1984.

LICENSING DEPARTMENT

Carriers operating within the State of South Carolina on an intrastate basis, and carriers based in South Carolina operating on an interstate basis have, over the years, purchased licenses and paid fees as indicated by the table below.

Statement Showing Receipt and Deposits to the Credit of the State Treasurer, Cost of Administration and Balance for Distribution to Cities and Towns During the Period July 1, 1983 thru June 30, 1984

PUBLIC SERVICE COMMISSION LICENSE TAGS ISSUED:

| | | |
|---------------------------------|--------------|---------------|
| Class A Licenses | 101 | |
| Class B Licenses | 2 | |
| Class C Licenses | 1,059 | |

| | |
|----------------------------------------------|-----------------------|
| (Motor Vehicle Registrations) | \$1,375,546.00 |
| Total License and Registration Fees | <u>\$2,286,431.15</u> |
| Less Cost of Administration | <u>\$1,337,089.32</u> |
| Balance for Distribution to Cities and Towns | \$ 949,341.83 |

With the growth of the motor carrier industry in this State, together with the better enforcement of the Motor Carrier Law made possible by increased enforcement facilities, the work of this division has rapidly increased, as evidenced by revenue receipts as shown in the following, through the fiscal year 1962-1963. However, beginning in 1962 the General Assembly for three successive years, passed legislation which reduced license fees for Class D, E and F Certificate Holders by twenty-five percent per year. This reduction is shown in the revenue as collected since that time along with a portion of the motor vehicle registration fees collected by the South Carolina Tax Commission and credited to the Motor Transportation Fund beginning with the fiscal year 1962-1963.

RATES, RAILS, & RAIL SAFETY DEPARTMENT

The Rates, Rails & Rail Safety Department handles and investigates applications and matters involving rates, fares, charges, practices, and facilities of the regulated transportation companies in South Carolina.

The Rates, Rails & Rail Safety Department supervises and maintains a current file of freight, passenger and express tariffs and makes analyses and studies necessary for the Commission's general supervision of the regulated transportation companies. All regulated transportation companies are required to file and receive approval by the Commission for tariffs setting forth all rates, charges, classification, rules, regulations and practices for South Carolina intrastate transportation. The tariff files contain approximately 2,980 current tariffs for which approximately 60,000 supplements and reissues are received annually.

All cases requiring a public hearing are handled on the Commission's Formal Docket. Such cases result from protests filed by interested parties against petitions or applications by the various regulated carriers seeking authority to discontinue or change an existing service, complaints or protests filed against existing or proposed rates, fares, charges or practices of such carriers, and investigations instituted by the Commission upon complaint or its own motion. Formal Docket cases concluded during the 1984 fiscal year are as follows:

| | | |
|---------------------|-----------|---------------------------|
| Motor Carrier | <u>10</u> | |
| | 10 | Total Formal Docket Cases |

In some cases matters may be settled or adjusted informally without the necessity of a public hearing, and are handled on the Commission's Informal Docket. Such cases generally involve discontinuance or abandonment of certain minor services or facilities which have become obsolete or for which little, if any, public need continues to exist, such as spur tracks, sidings, removal of old or unused depot buildings at non-agency stations and other like matters, where no protests nor objections are made by interested parties after due notice has been given. Informal Dockets concluded during the 1983-84 fiscal year are divided as follows:

| | | |
|---------------------|------------|----------------------|
| Railroad | 642 | |
| Motor Vehicle | <u>481</u> | |
| | 1,123 | Total Informal Cases |

The Rail Safety program was initiated to enforce the safety rules and regulations of the State of South Carolina. The program was certified by the Federal Railroad Administration in 1980 pursuant to the Federal Railroad Safety Act of 1970 (45U.S.C. 435 (d) and 49 C.F.R. 212.33). The program consists of a Motor Power and Equipment Inspector, Operating Practice Inspector and a Track Inspector. The Motor Power and Equipment Inspector is responsible for the inspection and safety compliance of the thousands of pieces of rolling stock of the railroads. The Track Inspector is responsible for all phases of Track inspection and safety compliance for the 2730 miles of track in South Carolina. During the fiscal year 84, there were 165 equipment inspections, 3,955 turnout inspections, 3,600 record inspections, 1,250 crossing inspections, 2,785 derail inspections and 431 miles of track inspected.

The Commission has jurisdiction over city bus transportation operated by the Duke Power Company in Anderson and Spartanburg, and the South Carolina Electric and Gas Company in Charleston and Columbia, South Carolina.

Shown below is a comparison of passengers transported for 1982 and 1983, which shows an decrease of 1.6% for this year.

| | Passengers Transported | |
|-----------------------------------|-------------------------------|-------------------|
| | 1983 | 1982 |
| Duke Power Company | | |
| Anderson | 211,435 | 204,328 |
| Spartanburg | 643,623 | 649,831 |

REGISTRATION DEPARTMENT

Registration of Certificated and Exempt Commodity Interstate Motor Carriers (Public Law 89-170 — Section 58-23-640)

On April 16, 1971, The South Carolina Motor Vehicle Carrier Law was amended by adding Section 58-23-640 governing the operation of Interstate Carriers certificated by the Interstate Commerce Commission and Interstate exempt commodity carriers. Section 58-23-640 authorized the South Carolina Public Service Commission to promulgate rules and regulations pursuant to this Act. The Rules promulgated complied with the standards as recommended and approved by the National Association of Regulatory Utility Commissioners and the Interstate Commerce Commission.

Carriers coming under this category are charged a registration fee of \$25.00, with amendments to the authority as registered \$10.00. Mobile Home Transporters are charged one-half the amendment fee or \$5.00. All motor carriers operating into or through South Carolina under Section 58-23-640 must purchase an identification stamp at \$5.00 per vehicle.

Under the same Section, all exempt carriers operating into or through South Carolina must file a letter with this Commission setting forth their exemption. Fees are identical to those of Certificated Carriers. Funds derived from such fees and charges are retained by the Commission and expended by it to control and police illegal transportation and promote safety on the highways.

During the period of July 1, 1983 through June 30, 1984, 1,672 Certificated carriers registered their authority with this Commission. Prior registrants were 7,016 making a total of 8,688 Registered Certificated carriers. There were 699 registrants of additional authority with this Commission. For the same period 1,316 motor carriers registered letters of exemption. Prior registrants were 20,094 making a total of 21,410 registered exempt carriers.

| | |
|------------------------------------------------|----------------|
| Revenues from Certificated Carriers | \$2,057,426.00 |
| Revenues from Exempt Carriers | \$ 118,679.00 |
| Less Uncollected Sources | \$ 186.00 |
| Total Revenue from 7-1-83 through 6-30-84 | \$2,175,919.00 |
